

Eases Colds

At once! Relief with "Pape's Cold Compound"

The first dose eases your cold! Don't stay stuffed-up! Quit sneezing and stuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all grippe misery.

Relief awaits you! Open your clogged-up nostrils and the air passages of your head; stop nose running; relieve the headache, dullness, feverishness, aching, soreness and stiff-ness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Take one. Continue to go quinine. Insist on Paper's—Adv.

Unnecessarily Warned.

He—l may as well tell you, before you hear it in some other way, that I knew another man's wife last night.

The Misson—I'll get a divorce, but who was the horrid thing?

He—l wish you wouldn't speak that way of my mother.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for fifteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monosaccharide of Salicylic Acid.—Adv.

Cost of Politeness.

"Politeness costs nothing." That's a mistake," replied the man who does not articulate well. "Every time I say 'please' to the telephone operator it costs valuable time because I can't manage to keep it from sounding to the operator like 'three.'"

"CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."—Adv.

The Proposal.

"How would you like a little pet monkey around the house?"

"Oh, Harold, this is so sudden."

"KILL-JOYS"

Constipation, Headache, Colds, Biliousness ended with "Cascares"

Nothing takes the joy out of life quicker than a disordered liver or waste-clogged bowels. Don't stay sick, bilious, headache, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascares and enjoy the sweet, gentile laxative-cathartic you ever experienced? Cascares never grips, tickles or inconvenience one like Senna, Oil, Calomel or harsh pills. They work while you sleep.—Adv.

Overshadowing and undermining do not make for industrial solidarity.

FOKKER DEVISED RADIO AIRPLANE

Dutch Inventor Had Plan to Put Allied Artillery Out of Commission.

BUNGLED BY THE WAR OFFICE

Airplanes Loaded With Explosives to Be Directed by Wireless—Fokker Prepared Machine, but War Office Spoiled Scheme.

Amsterdam.—M. Fokker, the Dutch airplane expert who worked for the Germans during the war, stated in an interview that he had made millions of marks out of the Germans, but would give half of them to prove to the world that he was never anti-German.

"I was making airplanes before the war broke out," he said, "and when the Germans asked me to make airplanes for them I could only agree to do so. It was purely a financial matter."

"We are having an airplane exhibition here in Amsterdam this month and I find that all the English flying men who come here are good sportsmen. They don't nurse any grudge against me for making airplanes for the Germans, but the Frenchmen—they never will forgive me. I fear My machine brought down too many Frenchmen, and they don't like my name."

GERMANS HAD 1800.

M. Fokker said he built 1,800 airplanes at his factories in Germany for the Germans to use in the spring drive of 1918, but the allies had five to one. So the German army had to quit.

"If the war had gone on for several more years how far would the airplane have developed?" M. Fokker was asked.

His answer revealed what he claimed had been a great military secret. "We would have put the artillery out of commission," he said. "We would have made the big guns as old-fashioned as spears. It was all the fault of the army red tape in Berlin that it was not begun sooner."

"It was like this: In 1906 the army authorities asked me if I could make a very cheap airplane with a very cheap engine, capable of flying about four hours, which could be steered through the air by wireless waves.

"They intended to load each one of these airplanes with an incendiary bomb and send them into the air under the control of one flying man who would shepherd them through the sky by wireless like a flock of sheep. He would be able to steer them as he pleased, and send them down to earth in exactly the spot he selected."

"The German idea was that it was a tremendous waste to send shells

through the air by means of explosives. Their idea was to put all their explosives into the shells, and then leave the shells to their destruction by pent-up power. They had really lost faith in the use of big guns."

"Of course, each one of these airplanes with its engine would be blown up when the bomb exploded. The whole thing was not much more expensive than firing long-range shells, and it would be far more sure and more deadly."

WAR OFFICE BUNGLED.

"My plans were accepted by the authorities and then the war office made their great mistake. They decided to make the airplane itself. The war office bungled along with the manufacture of planes for many months, and when they had finally turned out a few machines they found that they could not be depended on."

"In the summer of 1918 they came to me and gave me a huge order for the wireless-steered airplanes. I had just gone ready to manufacture them in wholesale quantities when the end of the war came."

"My plan was accepted by the authorities and then the war office made their great mistake. They decided to make the airplane itself. The war office bungled along with the manufacture of planes for many months, and when they had finally turned out a few machines they found that they could not be depended on."
